

## Cockroach Treatment Preparation Sheet (Residential)

With cockroach control, sanitation is EVERYTHING. The following tasks must be completed before performance of a cockroach treatment may take place. \_\_\_\_\_

### Preparation Tasks To Be Completed Prior To Our Arrival:

- € Deep clean kitchen, including floors, counters, stove, range hood. Clean small appliances and inside and outside your dishwasher. Pull out refrigerator, stove, etc. and clean behind and underneath. Cleaning of all non exposed sides of large appliances should be done before not after treatment.
- € Everything should be removed from kitchen cupboards, above and below the sink, drawers and counter tops should be cleaned. Wash cupboards inside and out, wipe out drawers with damp rag, clean sink and counter tops well. Items may be placed on the kitchen table or on a couch or chair, and should be covered with a thick sheet or tarp.
- € Bathroom cabinets and under sink should be cleaned. Wash cabinets inside and out, wipe out drawers with damp rag, clean sink, tub, inside and outside of toilet and scrub bathroom floor.
- € Pick up and remove trash inside and outside
- € Vacuum all carpets. **Turn off Smoke Alarms (Please be sure to turn back on immediately after safe reentry)**
- € Clothes hanging in closet should be removed and placed on beds. Shoes and other items on closet floors should be removed. Clean closet shelves. Furniture and other items should be moved out at least 2 feet from walls.
- € Pets should be removed from inside. Fish tanks should be covered or removed. If fish tanks are covered, the air pump should be shut off.
- € Children's toys, pet food dishes and exposed food should be placed in a protected area.
- € If you are ill or pregnant or if you or any member of your household has sensitivity to chemical odors or other odors, AllTrust Pest Control, recommends that you contact us for product information and consult with your physician prior to the treatment.

### After Our Treatment Is Complete:

- € Do not re-enter the premise for at least **4 hours** unless specified otherwise. If you have medical problems or are sensitive to odors, it may be advisable to stay out longer. Consult your physician.
- € Immediately upon re-entering the treated premises, open windows and doors to air thoroughly.
- € Thoroughly wash (with soap and water) all exposed eating surfaces (including table cabinets, counter tops) and any exposed dishes or silverware small appliances. Do not wash any treated surfaces such as baseboards.
- € **In roach control, sanitation is essential.** Do not leave empty milk or beverage bottles inside. Keep areas under and behind stoves and refrigerators clean. Do not allow food and garbage to accumulate in areas where roaches feed or hide. Pet food should be stored in sealed containers. Clean vacuum, it's reservoirs and discard it's bags.
- € It is normal to see roaches for several days after the treatment. It may take several days for roaches hiding in inaccessible areas to contact treated surfaces. After 2-3 weeks, your house or apartment should be re-treated. It is usually not necessary to clear out cupboards for follow-up treatments. There is a 30-day warranty from the time of the re-treatment (only if the re-treatment is performed 2-3 weeks after the initial.)
- € Pick up and remove of all cockroaches immediately. Never smash cockroaches and leave them behind! Do not discard of insect monitors as they will be needed for your follow up visits. .
